SEPTEMBER, 2018**

**TEACHER FEEDBACK ANALYSIS AND ACTION TAKEN REPORT
(Academic Session 2017-2018)**

The institution takes feedback from the teachers every year. Total 25 nos. of feedbacks have been collected from the teachers for the session 2017-2018. The feedbacks are basically on the curriculum, teaching-learning process and on the infrastructural facilities of the institution. An analysis of the feedbacks brings forth that the teachers are very much satisfied with certain aspects of the curriculum such as the prescribed course content as well as its relevance, the future scope of the prescribed courses in introducing new courses and also provided positive feedbacks regarding the existing programs' sufficiency in meeting the students' requirement of employability skill. Besides the teachers are satisfied that the academic calendar provides sufficient teaching days to complete the syllabus. All the teachers take remedial classes for the weaker students. Most of the teachers are unable to use ICT tools in the classroom because there is a lack of ICT based classrooms at the institution. After a proper analysis of the collected feedbacks, some drawbacks have come into forth which are suggested by the teachers and are mentioned below:

1. Teachers suggest that the authority should introduce e-learning resource at the central library so that the students and teachers can make use of it at maximum level.
2. Teachers suggest the authority to provide a power generator at the institution.
3. Teachers are demanding for departmental teacher common room and canteen for students as well as employees of the institution.
4. Some teachers demand for extra practical rooms.

The feedbacks collected from the teachers were discussed in IQAC and carried forward to the institutional authority. Accordingly, the authority takes the following actions:

1. The authority provided some reference as well as textbooks to the central library related to all the existing departments of the institution.
2. As per the demands of the teachers, the authority provided a power generator at the institution.
3. The authority provided five computers at the computer lab.

Conclusion:

The feedbacks collected from the teachers were analyzed and suitable actions were taken in order to satisfy the expectations of teachers.
